

If you do not achieve the grades you expect or need, you may wish to have one or more units (papers) reviewed. You should think very carefully and obtain advice from your subject teachers before requesting any of the following services. The great majority of marks and grades are confirmed and for the few that are changed, marks can go down as well as up.

All requests for post results services must be made through Yavneh College. The awarding bodies will not accept private applications.

Requests will only be accepted from student Yavneh College email accounts. Requested copies of papers and outcomes of reviews will be emailed to student accounts only.
